CAREER SUMMARY

Security Operations Center Analyst with expertise in **threat detection, incident response, and vulnerability management**. Skilled in **SIEM tools (IBM Qradar, FortiSIEM, Azure Sentinel)**, **threat intelligence, phishing analysis, and DLP monitoring**. Proficient in **vulnerability assessment, patch management, and security hardening** using **Nessus and Qualys**. Dedicated to enhancing security posture through proactive risk mitigation and compliance enforcement.

EXPERIENCE

Security Operations Center Analyst | [Intellect Design Arena](#)

June 2023 – Present

- **Resolved 1,000+ security alerts/month**, improving threat detection and neutralization efficiency.
- **Managed 24/7 SOC operations** across **SIEM, EDR, AV, IDS, WAF, firewall, and DLP tools**, significantly reducing false positives.
- Analysed logs from **IBM Qradar, FortiSIEM, and Azure Sentinel** to discover and analyse security events.
- **Tracked and prioritized incidents (P1–P3)** in **ServiceNow**, ensuring SLA adherence and timely resolution.
- **Improved DLP compliance** by analysing data-sharing logs to preventing unauthorized data exfiltration.
- **Investigated phishing threats** by analysing emails, domains, and IPs using **open-source threat intelligence tools**.
- **Led endpoint incident response** using EDR platforms including **CrowdStrike and Trend Micro Apex**.
- **Enhanced cloud security** by integrating **AWS Guard Duty and Inspector** into monitoring workflows.
- **Automated vulnerability scanning and data analysis** using **Python**, identifying trends in security threats.
- **Mapped incidents to MITRE ATT&CK**, enabling structured threat analysis and pre-emptive hunting.
- **Prepared daily, weekly, and monthly security reports** based on client requirements.
- Executed **Root Cause Analysis (RCA)** and recommended preventive measures to avoid future accidents.
- **Conducted 150+ monthly vulnerability scans** across hybrid environments, reducing overall risk exposure.
- Used **Nessus and Qualys** to identify and resolve vulnerabilities, resulting in improved compliance and reduced threats.
- **Monitored CVE databases and security bulletins**, providing **real-time threat updates** to the security team.
- **Performed malware analysis** and created **YARA rules** based on IOCs in isolated virtual environments.

- **Produced actionable reports** (daily to monthly) and **collaborated with patch teams** to remediate critical vulnerabilities by **40%**.
-

CERTIFICATIONS

- [Microsoft Certified: Security Operations Analyst Associate \(SC200\)](#)
 - Seceon Certified Professional
-

TECHNICAL SKILLS

- SIEM Tools: IBM Qradar, FortiSIEM, Azure Sentinel
 - EDR Tools: Trend Micro Apex, CrowdStrike
 - Vulnerability Management: Nessus, Qualys, Patch Management
 - Operating Systems: Windows, Linux
 - Data Loss Prevention (DLP): Trend Micro Apex
 - Security Hardening
 - Network Security
-

PROJECTS

Vuln-MS

- Developed a **web-based vulnerability management platform**, automating **scanning, tracking, and remediation**.
 - Implemented **automated quarterly scans** for **internal, external, and cloud assets**, ensuring **consistent security monitoring**.
 - Established **role-based access control (RBAC)** to ensure secure data handling and **compliance**.
 - Designed **interactive dashboards** for vulnerability trends and remediation tracking.
 - Integrated a **ticketing system** to streamline **issue tracking and resolution**.
-

EDUCATION

MCA in Computer Science | Manipal University Jaipur (2024 – Present)

- Coursework: Cybersecurity, Threat Analysis, Incident Response

B.Sc. in Computer Science with CTIS | Rathinam College of Arts and Science (2020 – 2023)

- Coursework: Cloud Computing, Linux, Ethical Hacking
